

Expocabinets: About Us

Who are we?

Expocabinets is a family-owned business located in Lorton, Virginia minutes away from I-95. We also are able to ship directly to anywhere in the US.

Why are our products so affordable?

We import directly from overseas manufacturers without the use of middlemen, interpreters, or distributors.

What about quality?

Our cabinets are made from green sustainable materials using superior plywood panels, not sub-standard pressed particle panels found on most retail chain stores. We also always include high quality soft-closing drawer slides and self-closing door hinges.

Why choose us?

We offer high quality products, next day pick up, free professional consultants, and free granite countertops. See terms and conditions.
