

Measurement Guide

Before You Start

- Record all measurements in inches (do not round)
- Make sure that all recorded measurements are clearly legible.
- Assign one person to determine and record all measurements.

Record Ceiling Height & Wall Lengths

- Draw an outline of your kitchen.
- Record the ceiling height.
 - Measuring from the floor to the ceiling (or base of soffit/bulkhead)
- Record the wall lengths.
 - Start in one corner of your project area and measure to an adjacent wall.
 - Continue around the room, until all necessary walls have been measured.

Measure Windows

- Add window location to your drawing.
 - Include all window trims as part of the measurements for the windows.
 - Measure and record each window's width, height, and distance from the floor.
- Continue around the room until all necessary windows have been added.

Measure Appliances

- Measure or research and record the width, height, and depth of your sink and all appliances.
- Add the sink location to your outline.
 - Start at the center of your sink, and measure to the closest wall.
- Add the appliance locations to your drawing.
 - Start at the edge of your range, and measure to the corner of the closest wall.
 - Start at the edge of your refrigerator, and measure to the corner of the closest wall.
